

# My Activity Center

The Activity Center is where most of the self-service actions available within My Oracle can be accessed. This guide will give a general overview of navigation of the Activity Center.

The Activity Center can be accessed from the My Oracle Home Page.

The **three highlighted sections** at the top of the My Activity Center screen are **selectable** and are where the **Payslip, P60** and **Salary details** can be located.

**Work related history** is displayed at the **bottom of the screen** and will include annual leave booked, payslips, changes which have been applied to your assignment/history.

By Selecting the **View More** option, a **quick actions** menu will be displayed.

**Tip:** The Quick Actions Menu can be searched using the search bar, enter the search term and select Enter on the keyboard.

**Tip:** You can personalise the tiles that you see on the My Activity Center Home Page to display your most used actions. From the Quick actions menu just click on the pin icon next to the action you want to pin. You can choose a maximum of 6 pins, to unpin just click on the pin icon again.

All the actions displayed within the Quick Actions menu can be accessed by selecting them, it will then take you to the relevant screen.
