

## Corporate Backgrounds for Online Meetings

We now have access to several Essex County Council branded corporate background images for online meetings.

These can be accessed while in a Teams meeting by click on the three dots icon and selecting **Show background effects**.

This will bring on up the **Background settings** panel on the right of the Teams window.

From here you can blur your background or choose from one of the background images. The Essex County Council branded images should be found towards the bottom of the list.

Choose your image and click **Apply** to use that background.

If you would like to use these background in another meeting application, such as Zoom, you can right click on one of the images below and select **Save image as...** give the file a name and click **Save**.

A guide on using virtual background in Zoom can be found here; <https://support.zoom.us/hc/en-us/articles/210707503-Virtual-Background>

Alternatively you can download all of the backgrounds on the Member portal
